

# Catch the Sight Words

## PLAY

#1 When you are first working on the words, show your child a word and have them find it.

#2 As they learn the words, say a word and have your child find it.

#3 Once your child is pretty comfortable with the words play catch. Read a word then toss the ball. Have your little one read a word, help them if you need to. Keep going until you've read all the words a couple of times.
